- Maltese
- Dutch (Starter)

## About Me

Junior Front-End Developer specialized in building performant, data-driven web applications using React, Next.js, and TypeScript. Passionate about transforming complex datasets into intuitive, interactive user experiences. Strong focus on clean architecture, component design, and collaboration between design and development.

## Projects ( 3 seclated )

### Booking Reservation System (Deployed)

Next.js 16, TypeScript, Supabase, Tailwind CSS

- I built a full-stack restaurant reservation system using Next.js App.
- Designed reusable and modular component architecture.
- Implemented server-side API routes and database logic.
- Created booking availability logic based on real-time data.

### Portfolio Website (Deployed)

React, TypeScript, Tailwind CSS

- I built a personal portfolio website showcasing projects.
- Implemented interactive features and contact forms and responsive.

### Restaurant Landing Page (Deployed)

React , Vite , TypeScript, Tailwind CSS

- I built a responsive restaurant landing page using React and Tailwind CSS, optimized for desktop and mobile.
- Implemented interactive features and contact forms and responsive.
